

prayer, their blood tests prove it. There are many more examples too.

Yes Jesus is the same today and tomorrow and can heal your body and your mental problems. All you have to do is to ask Him. Yes, the alternatives are more comfortable to us. We get used to the pills, the surgery, the medical treatment prescribed; it fits in with society, its culture and expectations. Health so dominates everything.

There is the alternative, not alternative medicine but an alternative person, Jesus Christ the Lord who heals you. Ask Him today. We would be happy to pray with you, with God nothing is impossible.

Jesus can also deal with all the other needs in our lives because when He died He dealt there with the powers of the sin and sickness which so dominate human lives in our generation. Ask the Lord Jesus and he will meet your every need.

If you would like prayer for healing please email us at

Prayer for healing.

Dear Lord Jesus

Thank you for dying for me and taking all my sicknesses. Please come and heal me from my illness in my mind and body and make me whole just as you did to so many when you were on the earth I believe that you are able to do this because your power is the same today as it always has been.

Thank you

HEALING

If you read a New Testament and the account of the Life of Jesus Christ so many miracles involving the healing of sick bodies are mentioned. Most people reject such things as nonsense and dismiss it all out of hand but nevertheless the writings are there and need to be looked at, especially as science does not have all the answers to human problems.

When Jesus was asked who He was He said “The blind see, the deaf hear, the dumb speak, the lame walk”. He used the miracles He worked as evidence at least, in part, as proof of who He was. The impossible was accomplished through prayer. Once word got around of what Jesus could do many brought their sick relatives to Jesus looking desperately for a cure. Even in our days people go on pilgrimages looking for the same result. In some cultures, healing is sought through witchdoctors and practitioners of the occult. Alternative medicine is now more widely used to find cures for those beyond the help of

conventional medicine. Proving that many believe that there are sources of healing beyond conventional treatment. It is important to note that many alternatives are based on occult practices and are very unwise and only lead from one problem to another. In today’s society there are sadly many people with mental health problems, due in part to the increasing stress of this modern world. There are still no human answers to many of the needs in minds and bodies.

Jesus Christ heals blind Bartimeus

After Jesus’ death His disciples carried on His work and they also saw many healing miracles. The apostles Peter and John ministered to the lame man at the temple gate

in Jerusalem and the man walked! They were only too willing to admit that it was not their ability but “Jesus Name through faith in His Name that had made the sick man well”. Jesus had said to them that “they would do greater works than He had done” and so it proved to be.

That you may say is 2000 years ago anyway, so what value is it to me today and my need? Through the centuries Christians have continued to experience the healing power of God in their lives and those of others. Jesus Christ the same yesterday, today and forever is a famous Bible verse indicating that Jesus still has the power today to heal bodies and minds and deal with the incurable.

The writer is his travels in East Africa and to a lesser extent in the UK, preaching the gospel of Jesus Christ has seen many similar miracles when people have been prayed for. The blind still see, the lame walk, the deaf hear and so on. Little children with incurable sickle cell blood disease are healed and live normal lives. HIV positive people become HIV negative after
